This data included in this visualization is collected through an annual data collection conducted by the AAVMC. Updated data is included in the visualization as it becomes available. Data for the Class of 2023 is expected to be published in 2019.

Prospective applicants are encouraged to contact individual member institutions directly for the most up to date information.

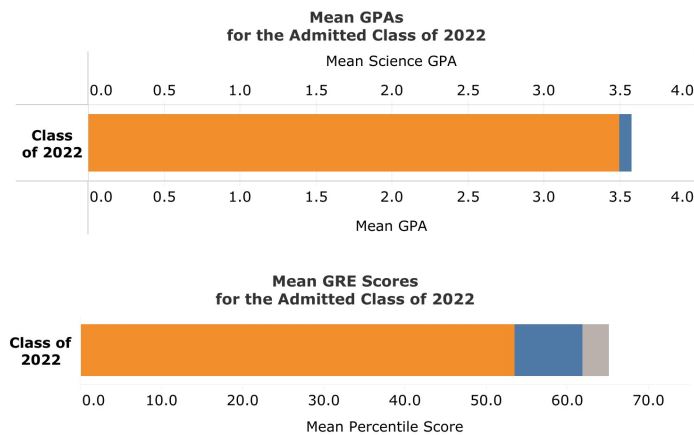

Admitted Student Statistics by Geographic Origin Class of 2022

Admitted first year students are shown by college and state of residence at the time of application. Scroll your cursor over a college; you will see the number of students admitted by state within the bars. College and state names have been abbreviated. University of Guelph, University of Prince Edward Island, Ross University and St. George's University are included in this visualization.

Figures for tuition, fees and cost of attendance/living are derived and calculated from AAVMC internal data reports with data collected in the fall of 2018. Users should anticipate continued escalations in the overall cost of education. Non-resident tuition figures include adjustments based on eligibility to establish residency during the first year of the program at certain publicly supported institutions. Estimated loan interest assumes the use of Federal Stafford loans to fully finance the cost of the DVM education at a rate of 6%. *This cost is included in the Total Cost of Attendance.* Institutional aid is understood to be college-funded scholarship, fellowship, or grant aid awarded to students.
